

Inland Empire Economic Recovery Corporation Executive Director hosts KTIE 590AM radio program

May 31, 2011

Show focuses on educating listeners about homes on the market

INLAND EMPIRE, Calif. —The Inland Empire Economic Recovery Corporation (IEERC) announced today that Executive Director Robert Hooker now hosts a weekly real estate program on KTIE 590AM, which airs every Saturday at 2:30 p.m. Local home buyers, industry professionals and others interested in the housing market are invited to tune in.

The half-hour show is called “Finding a Home in 30 minutes,” and will focus on informing listeners about renovated and

rehabilitated houses that are available for sale in the area.

The program will also provide general facts and information about the housing market and address topics such as escrow and mortgages. Hooker plans to feature a special guest each week that will talk about various disciplines of the real estate market.

“The format of the show is geared toward providing inland residents with timely information and opinions about the real estate market,” said Hooker. “Each week listeners will hear from local housing experts and gain valuable tips on how and where to buy.”

KTIE 590 AM is the Inland Empire’s largest and most listened to talk radio station. The station features local and national news, traffic updates and various talk show hosts that cover a wide range of topics.

About IEERC

The Inland Empire Economic Recovery Corporation (IEERC) is a non-profit public, private partnership that was incorporated in January 2009 to prevent the spread of blight in neighborhoods experiencing high levels of foreclosures. The organization helps stabilize real estate values in distressed

neighborhoods and provide more homeownership opportunities by purchasing, rehabilitating and selling foreclosed properties. Participating partners include the County of San Bernardino, San Bernardino Associated Governments, GBI Contractors and ABREI & Southern Cal Construction. For more information, visit www.ieerc.com.
