New radio program to discuss market

There is a new weekly real estate program on KTIE 590AM radio, airing every Saturday at 2:30 p.m.

The half-hour show is called "Finding a Home in 30 minutes," and will focus on informing listeners about renovated and rehabilitated houses that are available for sale in the area.

It will also provide general facts and information about the housing market and address topics such as escrow and mortgages. The plan is to feature a guest each week that will talk about various disciplines of the real estate market.

Robert Hooker, executive director of the Inland Empire Economic Recovery Corp., is the host.
